

Documentation for COVID-19 test for those with NemID

Here you can read more about how you can be tested for COVID-19 if you have a Danish personal registration number (CPR number)/an administrative CPR number AND have NemID.

Book a test at [Coronaprover.dk](https://coronaprover.dk)

Log in with your NemID and select: *'Bestil tid - Virustest podning borger'* (Book an appointment – virus test swab citizen). Then select time and place for your test. You can click *'kort'* (map) in the top right and select the test centre closest to you. Confirm time and place. It is important that you enter your telephone number so that the infection tracing staff can get in touch with you if you test positive.

Coronaprover.dk is available in both Danish and English, and you can read how to book tests and find answers to other questions under *'Questions and answers'*.

You can be tested at a mobile test station without a test appointment

When you arrive for the test

Follow the instructions at the test site.

If you have booked a test, you should arrive as close to the time of your appointment as possible to avoid the spread of infection.

See your test result

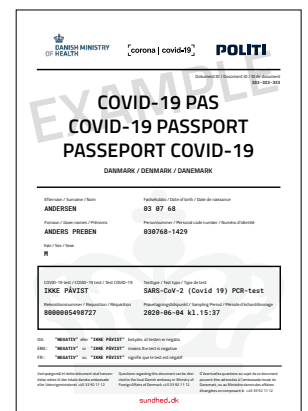

You can find your test result at Sundhed.dk. Click *'Se dit COVID-19 prøvesvar'* (See your COVID-19 test result). Log in using NemID. You can also see your test result in the MinSundhed (MyHealth) app.

You will normally be able to see your test result no later than 2 days after the test. You will often be able to see the test result already the next day.

Print or download test documentation

At Sundhed.dk, you can download or print a COVID-19 passport to document that you have been tested. Go to Sundhed.dk → *'COVID-19 pas'* (COVID-19 passport) → log in using NemID. You can see and download your COVID-19 passport when you have received your test result, but please note that you will not be able to see and download your COVID-19 passport if your test result is more than 7 days old.

Please note that the test documentation is only available in a version where the test result is shown. If your employer requests documentation without the test result, you must strike out the test result yourself.

Contact

If you experience problems with booking a test at Coronaprover.dk or cannot see your test results at Sundhed.dk, please contact Sundhed.dk support by Email: coronaproversupport@sundhed.dk
Telephone: 44 22 12 88
