

PCR testing of mobile workers

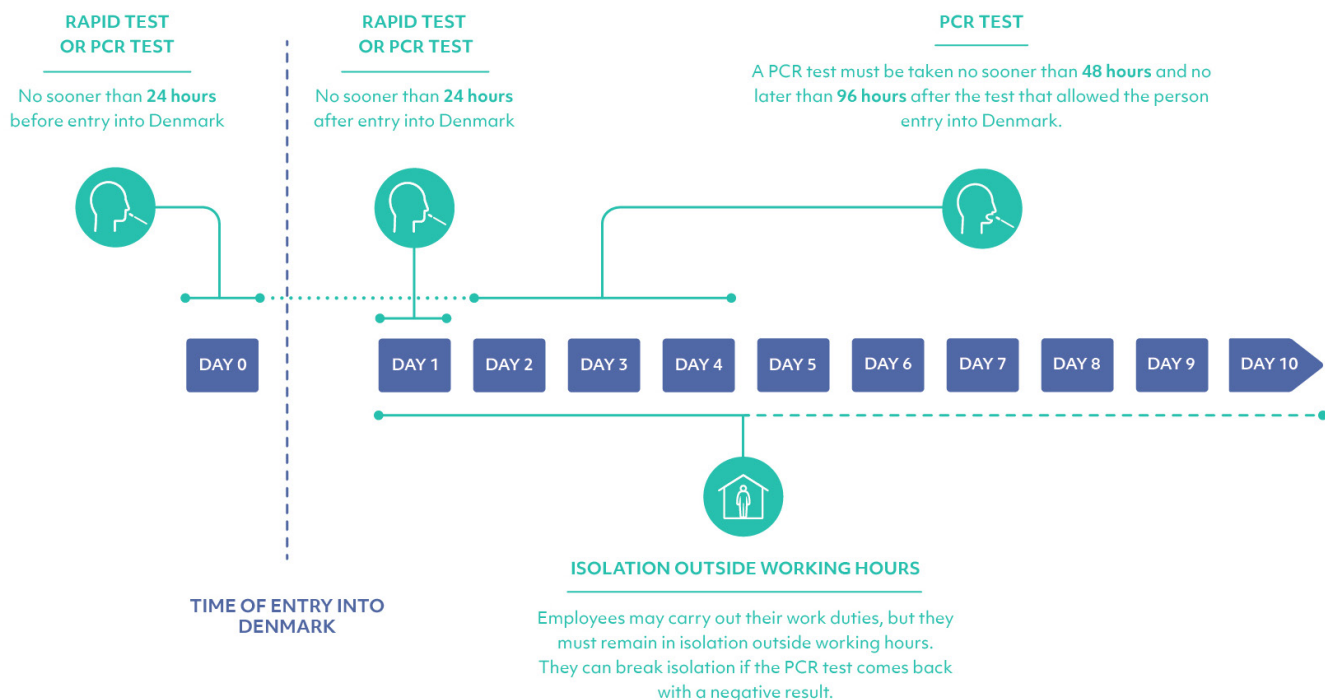

As an employer of mobile workers, you must ensure that your employees take a PCR test for Covid-19 no sooner than 48 hours and no later than 96 hours after the test that allows the employee into Denmark.

Furthermore, employers must prepare a written plan for the PCR test.

The Danish Working Environment Authority carries out inspections regarding the aforementioned PCR test.

Employers must be able to provide their plan for the PCR Covid-19 test of their mobile workers as well as documentation on PCR tests of employees and/or exemptions to the testing requirement.

Testing of mobile workers

Covid-19 testing plan

Employers must prepare a written plan for the third Covid-19 test (PCR test) of mobile workers. On the Danish Working Environment Authority's website, you can find a template that you can utilise to help you prepare this plan.
